

Date:

Dear Dr. _____ ,

Irlen Egypt Center is the only center in Egypt authorized from Irlen Institute in the USA to identify Irlen Syndrome and help in eliminating its symptoms using advanced color spectrometer technology.

Irlen Syndrome is a perceptual dysfunction that affects the processing of information as it passes from the eyes to the brain.

Name: _____ Age: _____ , suffers from reading difficulties and some physical symptoms. Before screening him / her for Irlen Syndrome, we need full eye examination including the following:

- Acuity,
- Refractive status,
- Binocular vision,
- Focusing ability, and
- Tracking ability.

Thanking you for your cooperation, and kindly hand a full report to the parent.

Best regards.

Rasha Anwar
Irlen Egypt Director,
Certified Irlen Screener
